

PageDeck™ Pro 2.0

Intelligent PDF/JDF Print Job Wizard for Multi-Tray Printers

*PageDeck™ software enables complete paper tray control with the VersaJette™ Typhoon™ C20590MX - The world's fastest **bank compliant MICR** & color inkjet printer.*

The VersaJette™ Typhoon® is a heavy-duty Multi-Function Printer (MFP) built for heavy, shared use in bank branches, workgroups, print shops and more

Easily manage up to 6 paper tray calls from a single PDF or JDF file!

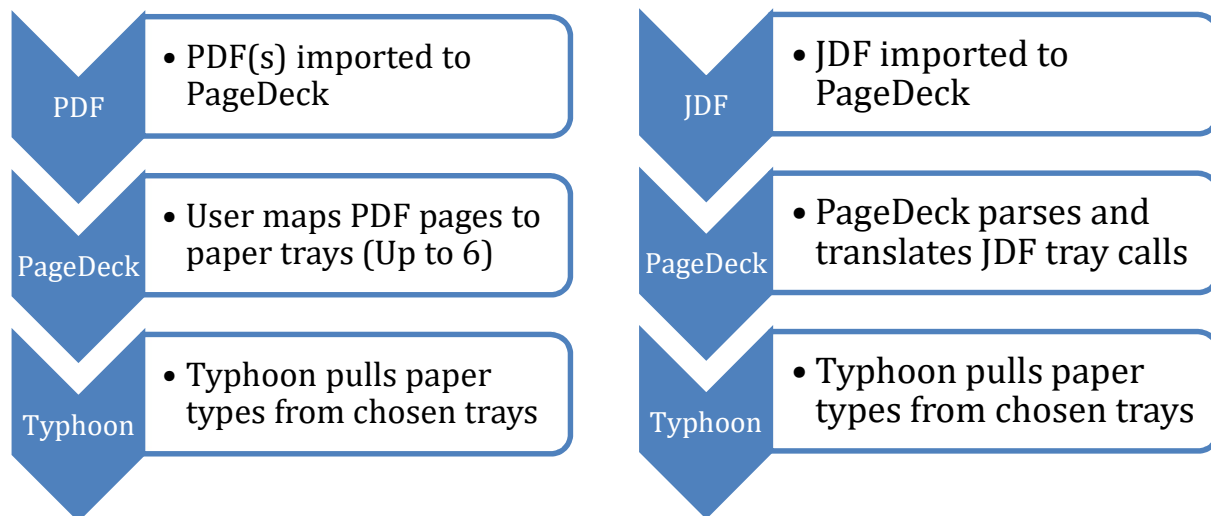

- Manage multiple paper tray calls from a single PDF
- Mix and match pages from multiple PDF files into one print stream file
- Overlay several PDF pages onto one page
- Auto split large print jobs per programmed recurring tray calls

Pages 1-2, 5, 7-25
Pages 3-4, 26-92, 113
Pages 6, 93-112
Pages 114-150

How it works

PageDeck™ is designed to highly automate workflows, print just-in-time, and for rapid order turnaround—resulting in high efficiency levels and profitable short runs. PageDeck™ allows the Typhoon to replace high cost multi-pass print jobs with one single-pass cost saving solution.
