Stealth™ Invisible Inkjet Printing

Powered by x-nano™ INK

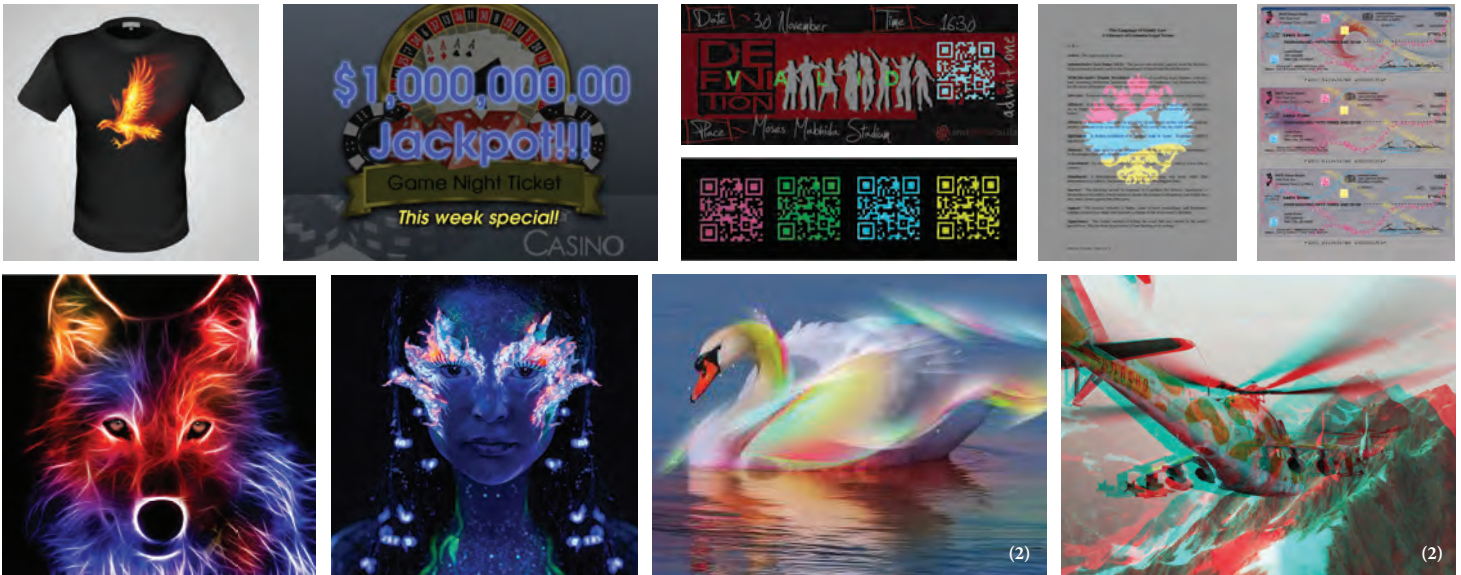

Invisible Color Printing and Security Solutions

Fast. Economical. Reliable. Environmentally Sustainable. Flexible. Powered by x-nano™ INK.

- Revolutionary! Color Stealth™-enabled inkjets.
- Invisible White, Red, Green, Blue inks replace conventional Black, Cyan, Magenta, Yellow.
- INKVERSE™ compatible for easy refill of included invisible ink cartridges.
- Print/Scan/Copy invisible images⁽¹⁾ on documents, envelopes, certificates, tickets, tags, labels, posters, wall paper, tissue and more.
- Includes TransChrome™ invisible image software.

A breakthrough in inkjet printing that delivers enhanced security and flexibility. The VersaJette Stealth™ Inkjet Series offers enhanced productivity and flexible paper handling for users with a requirement to print invisible color marks, barcodes images and text on documents, photos, labels, certificates, wall paper and posters. Powered by unique TransChrome™ Invisible Imaging technology, the Stealth™ series offers capabilities beyond any standard color inkjet and laser. The breakthrough Stealth inkjet devices produce fast, high quality invisible UV fluorescent color prints. Wireless networking allows easy printing from tablets and smartphones.

Create Stunning Visual Effects Using UV Invisible Fluorescent Inks

Add invisible images⁽¹⁾ and artwork to personal and business documents, valuable items such as tickets, labels, certificates, tags, ID badges, packaging, precious products and more.

Visible in 3D with left-right eye image overlay.

⁽¹⁾ Visible under 360nm UV light source

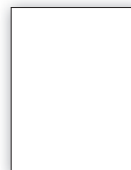

⁽²⁾ Visible under 360nm UV light and 3D Red/Blue goggles / glasses
